# Consulting Services

Your institution will reach its greatest potential when all aspects of your organization are aligned toward a common goal. SimplifyEd's vast experience in higher education helps you meet the information management challenges you face in many areas of your business.

Command more from your technology

Beyond communications technology, our experience in higher education enables us to help you meet the information management challenges you face in many areas of your business.

Working as your partner, let us keep your entire organization SimplifyEd and streamlined for success.

How we can help

Data Services

Data Conversions

Your data is one of your most precious business assets.

We'll make sure you get the most out of your valuable information, with expert assistance in data discovery, methodology design for your environment, translation tables, logical data transformations, and new system integrations.

Technology Assessments

Network Infrastructure Assessment

Our experts will work with you to ensure your current infrastructure policies and procedures meet your strategic goals. We'll also help with the implementation of system monitoring and auditing.

Business Application Assessment

With our experience in a wide array of business applications, we can evaluate your software and recommend applications that will best meet your specific needs.

Merger and Acquisition Assessment

Growth is good...as long as it's done intelligently. We help you make informed decisions through system discovery, documentation, consolidation, and transition. Additionally, we'll make recommendations to enhance and streamline your development process.

Compliance Reporting

SimplifyEd can take the burden of compliance reporting off of you. Higher education compliance reporting regulations are difficult and ever changing. Accuracy and timeliness are crucial. Whether for scheduled reporting, a pro-active self-audit, or an unplanned audit, we can help with a wide array of reports, including IPEDs, Gainful Employment, Accreditation Reporting, and more.

Other Consulting Services

SharePoint Design and Implementation

Enhance your information management through our expertise in SharePoint.

Whether you are implementing a new solution or enhancing an existing one, whether for collaboration or document sharing, we can design your SharePoint to accommodate your short-term and long-term objectives with the required scalability and security, so you can grow with confidence.

IT Project Management

Aligning technology initiatives with institutional strategies requires specialized knowledge. SimplifyEd helps you manage solutions effectively, serving as your liaison between your institution and a third-party provider to oversee a technical implementation.

Key Benefits

Enhanced Efficiency
Your organization achieves optimum productivity when all aspects of your technology work together
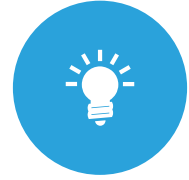

Accurate Information
Our comprehensive assessments keep you fully in tune with your organization's performance

Better Communication
Our integrated solutions make sharing data and collaboration easier and more productive

Customized Solutions
Each implementation is specifically designed for your individual need

Other Consulting Services

Staff Augmentation and Placement

SimplifyEd can reduce your staff and management overhead, as well as leveraging experts for specialized and quick resolutions to technology issues.

We work with you to ensure that your IT staff has the skills and experience to be efficient and effective within your infrastructure environment.

Along with augmenting your existing staff, we can leverage our onshore or offshore resources to outsource your processes and further reduce your operations cost. We also consult in technical staff recruitment, ensuring that their skills and experience will match your environment and the complexity of your systems.

Long term or short term, virtually or onsite, we can offer leadership and strategy in the CIO, CTO or Director roles to provide roadmaps and decision making to support your business technology systems.

Documentation

Maintaining up to date documentation ensures everyone stays on the same page.

Working with your internal teams, SimplifyEd can assist with thorough documentation for your systems and business processes.

Software Engineering

Often, getting the software that does exactly what you need it to do for your institution requires thinking outside the box. SimplifyEd will collaborate with you to build custom web applications for your intranet or extranet that will enhance your operations. Our software solutions can integrate your systems to streamline data transfers and eliminate costly and time-consuming manual data entry and file processing.

We Build

We think outside the box to build custom web applications for your intranet or extranet that will integrate your systems and streamline your operations.

We Reengineer

When your systems will no longer meet your current or future strategic needs, we'll assess their limitation and reengineer to bring them up to your high standards.

We Integrate

Software and systems work better when they communicate. We'll make that happen, building reliable and efficient integration bridges between internal and third party systems.

Making technology work for you

Your campus technology should work for you. Not the other way around. In our years of experience in providing technology solutions for higher education, we have found that the best implementations are those that are highly streamlined and cost-efficient.

Let's start with an assessment of your needs...

Many organizations know they have technology needs, but aren't sure what they are. That's what we're here for. Contact SimplifyEd today about an assessment to establish your needs. From there, we'll advise you on the next steps.

Call or email us today, and let's make your technology work for you.
